To Whom It May Concern:

I am writing to report an accident that occurred on the morning of Tuesday, May 6th. While traveling westbound on the San Francisco Bay Bridge at 9:15 AM on my motorcycle, I was hit by a driver who was making an unsafe lane change. As a result, I crashed and slid 120 feet on the roadway. The impacts on my life from this incident include:

- Broken left fibula (small lower leg bone)
- Broken right ankle
- 1 broken toe and 2 dislocated toes on my right foot
- Totaled motorcycle, at a loss of approximately \$14,000
- Destroyed protective gear and clothing, at a loss of approximately \$1,000
- Medical bills of approximately \$4,000 so far
- Confined almost exclusively to bed for 5 weeks
- Inability to go to work at my office in San Francisco

The driver who hit me was unharmed in the incident. She was identified by the CHP as Raeanna Shelara Martin. Ms. Martin provided additional information to the officer, some of which proved to be false. Ms. Martin:

- Was cited by the officer for making an unsafe lane change (21658(A) VC)
- Provided false evidence of financial responsibility (liability insurance)
- Provided a false address (no such address exists)
- Has since failed to provide valid liability insurance information
- Has been uncooperative with the efforts of my insurance agent to communicate with her
- Admitted that there was marijuana being smoked in the vehicle

Please review the accident report and complete CHP report, included with this letter.

Sincerely,

Shawn E. Stepper
